Adobe Certified Professional - Adobe Commerce Developer with 6 years of hands-on Magento 2/e-commerce experience (2019-2024), 7 years of project-management experience (2011-2018), and an IT career spanning 25+ years since 2000. Experienced in Magento upgrades, custom module development, checkout customization, REST/API integrations, Algolia search, payment integrations, Docker-based development environments, production troubleshooting, and malware remediation. Combines hands-on development with strong project ownership, client communication, technical support, and cross-functional collaboration. Known for PSR-compliant code, team spirit, and helping carry technical problems from diagnosis through resolution.

Magento / Adobe Commerce: PHP · Magento 2 Architecture · Custom Modules · Dependency Injection · Plugins · Events/Observers · REST APIs · Checkout · Algolia · Payment Gateways · Docker · MySQL · JavaScript · KnockoutJS · Linux · Nginx · Git · Production Support · Malware Remediation

Work Experience

Magento 2 Developer

Nov 2023 - Aug 2024

Syncit Group | remote

Upgraded existing production Magento 2 stores across multiple releases, including migrations from older 2.3.x/2.4.x environments to newer supported releases 2.4.6 and 2.4.7.

- Built and maintained Docker-based Magento development environments.
- Investigated and removed malware from compromised Magento environments.
- Customized Magento's standard Luma multi-step checkout.

Magento 2 Developer

Feb 2023 - Jun 2023

NTT Data Spain | remote

Developed Magento 2 modules from user stories and resolved defects in staging and production for the Orange Belgium e-commerce platform.

- Worked extensively on bulk order-status-update functionality.
- Integrated Algolia search functionality.
- Customized Magento's one-page checkout.

Magento 2 Tech Support Engineer

Jun 2021 - Dec 2022

On Tap Group | remote

Provided first-line technical support for e-commerce extensions through help desk and live chat; reproduced and triaged issues, resolved technical problems where possible, and escalated defects with actionable technical information.

Project Lead & Magento 2 Developer

Dec 2018 - Apr 2021

CodeWell Unlimited DOO | North Macedonia

Combined project leadership with development.

Developed both backend and frontend Magento 2 modules, running on AWS EC2, including: REST APIs, payment integration, Firebase, cron, shipping, COD, plugins, observers, admin configuration, localization, and other Magento work.

- Developed kids' merchandise shop "Zazu".
- Developed the e-commerce platform for the e-book system for the book publisher "TRI".
- For more information, see <https://denal05.github.io/>

EARLIER LEADERSHIP EXPERIENCE

2007 - 2018

- Project Manager | INform DOO | N. Macedonia | 2011-2018: Responsible mostly for project management. Other responsibilities included regulatory compliance, quality assurance, technical writing, software development, system administration, operations, procurement, human resources, and corporate social responsibility. Familiar with human psychology, priorities, deadlines, conflict, processes, budgets, customers, and responsibility. Between 2011 and 2018, major clients were IntriCon Micromedical Technology, Gauge Telematics, and SnapBar.
- Computer Science Teacher | Moreau Catholic High School | California, USA | 2007-2008: Instructed students on three subjects: Advanced Placement Computer Science for the College Board AP CS A exam, Introduction to Computer Science using Java, and Computer Essentials with Microsoft Office. Clarified fundamental Computer Science concepts. Encouraged discipline, diligence, and design.

EARLIER IT EXPERIENCE

2000 - 2009

- Application Engineer | Movell Software Inc. | California, USA | 2007: Integrated weekly source code releases of Movell's real-time remote diagnostic software engine I-DEAL onto a development board running embedded Linux using the GNU ARM toolchain. Demonstrated the diagnostic software to potential customers.
- Entry-Level Java Developer | Divvio | California, USA | 2007: Coordinated release builds, extended media player integration, and implemented new features for the flagship product: a Web2.0 video/audio aggregator application.
- IT Specialist | Norman Chrysler Jeep Dodge | Oklahoma, USA | 2005: Single-handedly maintained and expanded the entire IT infrastructure (including desktops, servers, databases, and networking equipment) of a major automobile dealership with three satellite offices. Made decisions in purchasing and coordinating with technology goods and services. Involved with all aspects of security.
- Microcomputer Lab Technician (Help Desk) | Office of IT at UCO | Oklahoma, USA | 2000-2003: Assisted Technology Support with work orders, including PC rebuilds/installation/removal/upgrades and basic and intermediate troubleshooting. Helped with the disposition of surplus computer equipment, including destroying data, salvaging parts, and rebuilding PCs. Checked IT computer labs and delivered printer supplies as needed.

Projects

Oct 2023 - Oct 2023

Extra Blog module for Magento 2

An extra Magento 2 module, with plugins for the "Blog" module, built as an exercise for the M.academy "Magento 2 Coding Kickstart" course by Mark Shust.

Sep 2023 - Sep 2023

Blog module for Magento 2

A Magento 2 module built as an exercise for the M.academy "Magento 2 Coding Kickstart" course by Mark Shust with additional functionality.

Nov 2023 - Aug 2024

docker-compose-plain-vanilla-magento-2.4

Configuration files for a Docker container running plain-vanilla Magento Open Source 2.4

Volunteer Experience

Localization Volunteer (Macedonian language)

Jul 2011 - Present

YouVersion

Faithfully serving as a volunteer on the team that localizes the most popular Bible app for iOS, Android, and web into the Macedonian language.

Financial Officer

Jul 2013 - Oct 2017

SEAM (IFES/InterVarsity in North Macedonia)

Responsible for finances, from paying bills and taxes to planning annual budgets, fundraising, grant proposals, and coordinating with the certified public accountant and financial officers of the umbrella organization International Fellowship of Evangelical Students (IFES/InterVarsity).

Team Member

Oct 2010 - Jun 2013

HBM (CBMC in North Macedonia)

Participated in the Christian Business Network in North Macedonia - a marketplace ministry.
